- National Civil Aviation Security Programme
- ENAC SEC05A Circular

## 3. APPLICABILITY

The provisions of this procedure apply, for the issuance of an airport entry ID card (*tesserino di ingresso in aeroporto* - TIA), to anyone intending to access, even temporarily, the landside and airside areas of the airport as identified in point 1.2.5.1.2. of the PNS (National Security Programme), for a "legitimate reason".

**"Legitimate reason"** as regards people, refers to travel, work, training, information/education:

a) travel is associated with boarding, as a passenger, escort or crew, on a flight that is scheduled to depart from the airport within the hours following access to the security restricted area;

b) work refers to any activity for which the person is employed and which must be carried out within the areas where the person is accessing and during the period in which the person is accessing; this includes, for example, tasks performed by emergency services and contractors or inspection tasks related to public institutional activities;

c) training is any training activity associated with tasks that must be carried out or to be carried out in the future within these areas once the training period has ended and, therefore, access to these areas is required to acquire knowledge and familiarity with the areas in question. matter, or activities taking place in the area;

d) information/education includes escorted visits for visitors who need to acquire knowledge and understanding of airport activities for specific reasons, for example, for those involved in the development and drafting of aeronautical legislation who must necessarily view the airport environment. School visits are also included, as well as tourist and similar initiatives organised by the operator subject to approval by the competent authority.

The airport entry ID card must be displayed by the holder in a visible way and for the entire period in which he/she is in the airport areas. The use of the TIA is strictly personal and cannot be transferred to third parties and is exclusively connected to the performance of work at the **airport where it was issued**.

An electronic "access control" system is active at the airport which, in accordance with the provisions of the National Civil Aviation Security Programme, allows people other than passengers holding an airport ID card (TIA) to open certain doors and/or turnstiles placed to safeguard controlled access areas.

An essential prerequisite of the system in terms of airport security is the absolute prohibition of "*queuing*" and/or "*multiple passages*" of persons other than passengers, each of whom must trace their own passage.

Each person other than passengers, once the door has been opened using the TIA, will have to wait for it to close completely in order to prevent fraudulent use thereof by passengers and/or unauthorised third parties.

Any anomalies and illicit uses must be promptly reported to the police.

## 8. ID CARD MODELS AND COLOURS

The PNS provides for the issuance of an entry ID card at Italian national airports that allows access only to the areas of the airport where the holder carries out his/her work. Below is a table describing the colours and access areas:

Colour	Access Area
Red	All Areas
Green	External airside, internal access and air navigation infrastructure
Blue	Internal airside
White	Escorted access
Yellow	Non-sterile area

Orange	Diplomats
--------	-----------

The **yellow “non-sterile areas”** entry ID cards are provided to staff of sub-licensees who work in the landside area as defined by EC Regulation no. 300/2008.

The ID card issued for access to the critical parts of security restricted areas must also identify a specific AREA or AREAS of the airport to which the holder has the right to access.

These areas are identified through the use of one or more numbers as listed below:

N	Access Area
1	All Areas
2	Internal area or areas of critical parts (departure halls, piers and internal other buildings) with the exception of the areas referred to in number 3
3	Baggage handling areas
4	Cargo areas
5	Aircraft and their adjacent areas
6	Aprons
7	Manoeuvring Area
8	Air navigation service infrastructure

**It should be noted that area 6 (aprons) also includes the airport perimeter. Access to the perimeter is allowed, for the time strictly necessary, exclusively for service reasons.**

For greater understanding, a colour facsimile of the layout of the airport entry ID card and of the “visitor” ID card is appended to this procedure (appendices 10, 11, 12 and 17).

It should be noted that the **RED 1** ID card can only be requested for the following categories of entities:

- Law Enforcement, Fire Brigade, State Bodies with functions of Navigation Police, Air Health;

As regards the latter category, where, on the basis of needs (duration and type of work) the contractor (secondary entity) needs to access the terminal premises via the Apron, or the type of intervention cannot be managed through access via landside, express authorisation must be requested to access via the Apron area.

The primary subject with direct relations with the Operator shall coordinate with the latter to define the methods and times. In turn, the ADR contact person coordinates with the Terminal and Movement Area manager in order to verify compliance with internal procedures, providing the ID Card Issuing Office with explicit authorisation to request a Green 2-6 ID card, the validity of which cannot exceed actual duration of the activities.

Any requests for exemptions must be sent by certified email to the Lazio Airport Management, on the applicant's letterheaded paper, specifying the reasons, the task and the type of activity to be carried out throughout the airport grounds, for the assessment and possible acceptance by said body.

## **9. PROCEDURE FOR ISSUING AIRPORT ENTRY ID CARDS**

### **9.1 GENERAL CRITERIA**

All applications for an airport entry ID card in typewritten or block capitals format, according to the appended forms, must be sent to the airport operator via WEB, at least **10 working days** prior to the date as of which access must be guaranteed.

Applications are forwarded via the WEB to the ID Card Issuing Office. The web service can be access after accreditation. For information and access procedures, please visit the website [www.adr.it](http://www.adr.it).

In the event of requests for clarification from the ID card issuing office on the files entered via the WEB, if the company does not respond within 6 months, the file shall be automatically cancelled and it will be necessary to resubmit the documentation as for the first application.

Once the application for an airport entry ID card has been obtained from the applicant, ADR shall arrange for the preliminary phase that precedes the issuance.

**The release of the ID card is subjected to the control of personal background (background check standard for yellow and background check cards strengthened for blue, green, orange and red) by the State Police - Air Border Police Office. The ID card will be issued only if the background check is passed.**

At the time of first issuance, the airport operator shall ensure and provide, at the same time as the airport safety training, the **information** on the methods of access and the infrastructural characteristics of the airport and the telephone security contact details in case of events relevant for security purposes.

The permit may be issued, following payment of the fee specified by the operator, up to a maximum of 6 months from the date of the application, after which it will be necessary to resubmit the entire documentation.

**At the time of first issuance, the TIA can only be delivered to the holder following presentation of a valid identity document.**

In the event of **renewal**, the TIA can be collected by **staff of the same company** following delivery of a **power of attorney** on a copy of the identity document of the holder of the aforementioned ID card.

When issuing an airport id card, the lack or non-compliance of the necessary documentation is verified, the id card cannot be issued until the practice is not regularized. A **new TIA** cannot be issued, provided that any previous airport ID card (be it expired or valid) has not been previously or simultaneously returned.

The Rome Airport ID Card Issuing Office is located in the Epuia 1 building and is open on the following days and times: Mon-Fri 08:15/15:45, continuously.

## **10. DOCUMENTATION TO BE SUBMITTED FOR THE ISSUANCE/RENEWAL OF AIRPORT ENTRY ID CARDS**

The airport entry ID card can be issued following submission, to the ID Card Issuing Office via WEB, of the following documentation:

- a) Application** on letterheaded paper (Annex 1);
- b) Legible photocopy** of a valid **Identity Document** of the person/persons for whom the ID card is requested;
- c) in the event of renewal and/or amendment** of the previous TIA, a **copy of the TIA held**;
- d) a copy of the certificate of attendance** on a security training course, in compliance with the provisions of the Security Training Manual adopted by ENAC. The issuance of an airport ID card that does not authorise access to the sterile area (**yellow coloured** point 1.2.5.1.2 of the national civil aviation security programme) requires the security training course referred to in category **A14 or A13 of the aforementioned Manual**.

Category A13 is not required if one of the following categories is held: A1, A4, A5, A11, A12, A12-*bis*, by those who have completed the training process and have obtained a certification, if applicable. It is understood that, upon issuing the TIA, the certificate must be valid. The certificate will be accepted only if issued by instructors who appear in the list of "certified security instructors" published on the ENAC website.

The certification of a person's training in a Member State is recognised in Italy following confirmation by the competent authority of the actual acquisition of skills. The security certificate will be accepted only if the name of the person who provided the course is included in the list of instructors certified by ENAC.

The expiry of the validity of the security course does not result in the forfeiture of the ID card, given that it is the employer's responsibility to verify its validity. **In the event of discontinuation of work and/or in cases in which skills have not been exercised for more than 6 months, it will be necessary to carry out a "recurrent training" course.** The certificate of attendance on the security course is strictly personal and monitors the employee.

Below is the summary table of the courses and the duration of periodic training:

CATEGORY	TRAINING
A1	Annual
A4	Annual
A5	Annual
A11	Annual
A12	Every Three Years
A12-BIS	Every Five Years
A13	Every Five Years
A14 (yellow-coloured ID cards only)	Every Five Years

- e) A copy of the certificate of attendance of an Airport Safety training course in compliance with the provisions of EU Regulation no. 139/2014, part ADR.OR.D.017, i):
- **YELLOW or BLUE-coloured ID cards Airport Safety Course**
    - Module 1 Rules of Conduct and Airport Emergency Management. The certificate issued is valid for 5 years.
  - **GREEN or RED-coloured ID cards Full Airport Safety Course**
    - Module 1 Rules of Conduct and Airport Emergency Management. The certificate issued is valid for 5 years.
    - Module 2 Airside Safety. The certificate issued is valid for 24 months from the date of issue, in order to maintain the requirements for airside access.

If a valid certificate is held from the Rules of Conduct and Airport Emergency Management course, it shall suffice to complete only Module 2 Airside Safety.

It is understood that, upon issuing the TIA, the certificate must be valid. For the training of their staff, entities and companies operating at the airport may require.

ADR to qualify their instructors according to the criteria set out in the Airport Manual, Part B, Paragraph 3.2.2.

For information and methods of delivering courses, please visit the website [www.adr.it](http://www.adr.it) on page: <http://www.adr.it/bsn-training> (percorso: home/per il business/training)

- f) **Declaration of residence and Declaration of professional activity, studies and any interruptions** of more than 28 days in the last five years in the manner provided for by Presidential Decree No. 445 of 28 December 2000, as amended; in this document the person concerned also declares, assuming responsibility, that during the periods of interruption they have not engaged in any behaviour and/or action contrary to security to be drawn up by the person for whom the airport pass is requested. The declaration must also certify the residence of the person concerned relating to at least the last five years in accordance with the procedures provided for by the aforementioned Presidential Decree 445/2000 and subsequent amendments and additions. For those who in the last five years have been

resident abroad for a period of more than six months, certification or attestation issued by the competent authority of the foreign state is required, accompanied by an Italian translation authenticated by the Italian consular authority certifying its conformity to the original, that he/she has not been convicted of any criminal offence and is not the subject of measures concerning the application of security and prevention measures, civil decisions and administrative measures entered in the criminal record, and that he/she is not aware of being subject to criminal proceedings (Annex 14A or 14B - English version). Notwithstanding the foregoing, the Operator is entitled to request additional documentation for the purpose of ascertaining residence for the last 5 years.

**g) Methods of exemption from the requirement of legalisation and translation established by law or international agreements:**

• **Reg. (EU) 2016/1191- only for EU States**

Regulation (EU) 2016/1191 promotes the free movement of citizens by simplifying the requirements for submitting certain public documents in the European Union. The same applies to documents certifying the absence of a criminal record, provided that public documents concerning that fact are issued to a Union citizen by the authorities of their

Member State of nationality. Thus, the translation requirement ceases to apply if the document is in the official language of the Member State or in an unofficial language accepted by that State. The public document relating to residence and absence of criminal record is accompanied by a 'multilingual standard form' provided that the national authority to which the public document is submitted considers the information in the multilingual standard form to be sufficient for the processing of the public document. Multilingual standard forms are issued by an authority and bear the date of issue, signature and, where appropriate, the stamp or seal of the issuing authority. In case of 'reasonable doubts' about the authenticity of documents, the regulation allows for the use of a cooperation mechanism between the authorities of EU countries (IMI, the Internal Market Information System).

Below is the link to the Ministry of European Policies:

<https://www.politicheeuropee.gov.it/it/comunicazione/notizie/documenti-pubblici-in-vigore-nuovo-regolamento-ue/>

• **Hague Convention of 5 October 1961 - only for acceding states**

In countries that have signed the Hague Convention on the abolition of legalisation of foreign public documents, the 'apostille' can be used. The apostille is affixed by the internal authority designated by each State; the apostilled document is directly recognised in the Member State of destination. It is a procedure by which a special stamp is issued on the back or appendix of the certificate of pending charges or criminal record. This stamp certifies that the signature of the official who signed the document is authentic and valid. The affixing of the apostille for these certificates is the responsibility of the public prosecutor of the district to which the judicial office in which the pending charges or criminal record were issued belongs. The apostille procedure makes the document valid only in countries that are parties to the Hague Convention and is the only form of legalisation required between participating countries, without the need to go to the Italian consular representation and request legalisation.

Below is the link for more details: <https://www.hcch.net/en/instruments/conventions/status-table/?cid=41>

**h) UNILAV Form** or other equivalent documentation certifying the regularity of contributions (such as, for example, a pay slip) must be submitted.
